

Based in Glyfada/Athens, **Optimum Ship Services** is a well-established ship management company with extensive experience in delivering high-quality, reliable maritime services.

We offer internship opportunities to motivated individuals eager to gain hands-on experience and grow within a dynamic and professional environment.

### **Technical Department Internship – Position Summary**

This internship provides support to the Technical Department and Fleet team, offering hands-on experience in ship management operations.

### **Key Responsibilities**

- Assist Technical Superintendents in checking maintenance tasks in the Planned Maintenance System (PMS).
- Help ensure vessels follow class, legal, and company standards.
- Maintain and organize technical records (e.g., vessel details, dry dock reports).
- Communicate with vessels on technical matters and manuals.
- Collect and analyze technical data and correspondence.

### **Qualifications**

- Master's degree (or in progress) in Engineering or Naval Architecture & Marine Engineering.
- Good computer skills.
- Strong written and spoken English.
